Enhances Visibility

Better Planning

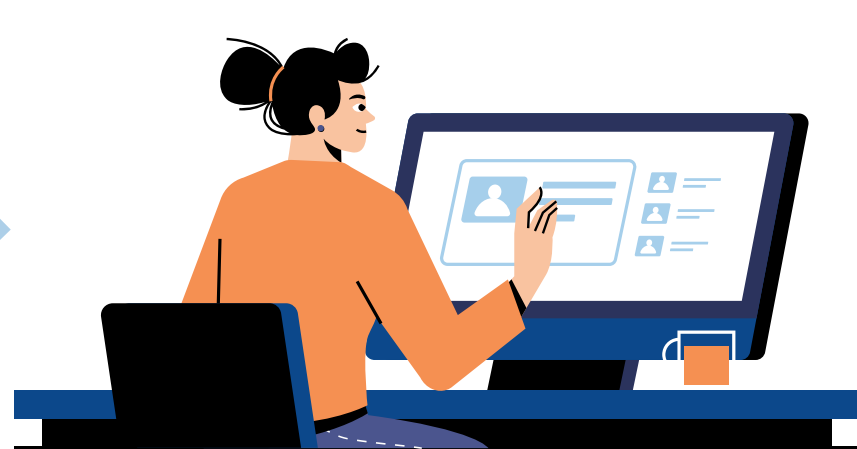

PROJECT OVERVIEW

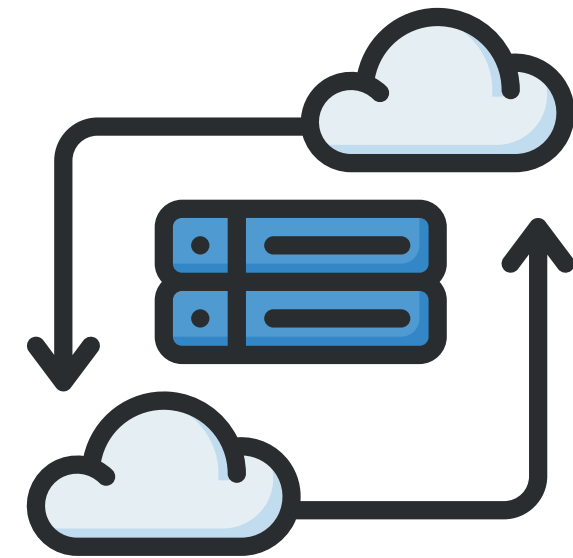

- A web-based system that simplifies how Kumon North Hobart manages student holiday absences.

Parent submits plan

Admin Approves

System Updates Status

Reports and planning ready

THE PROBLEM

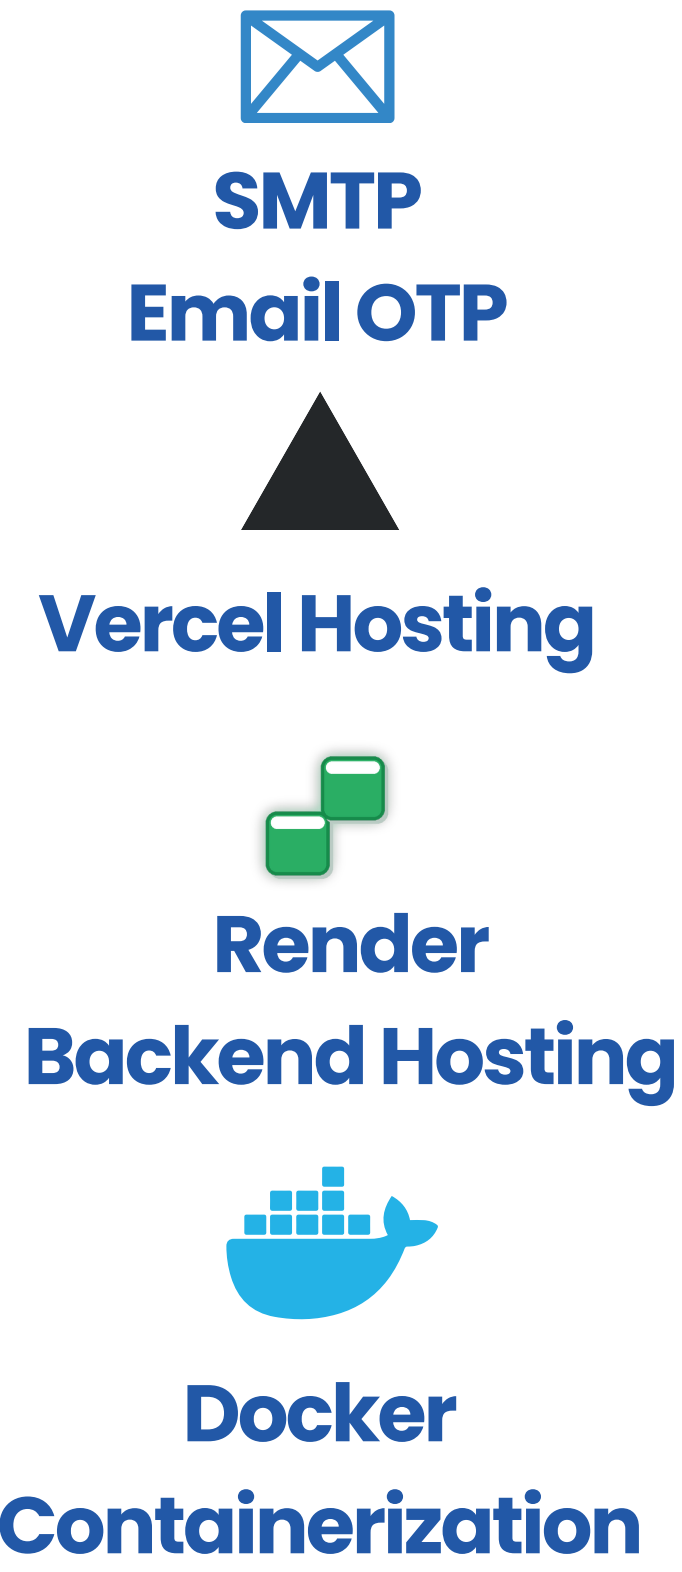

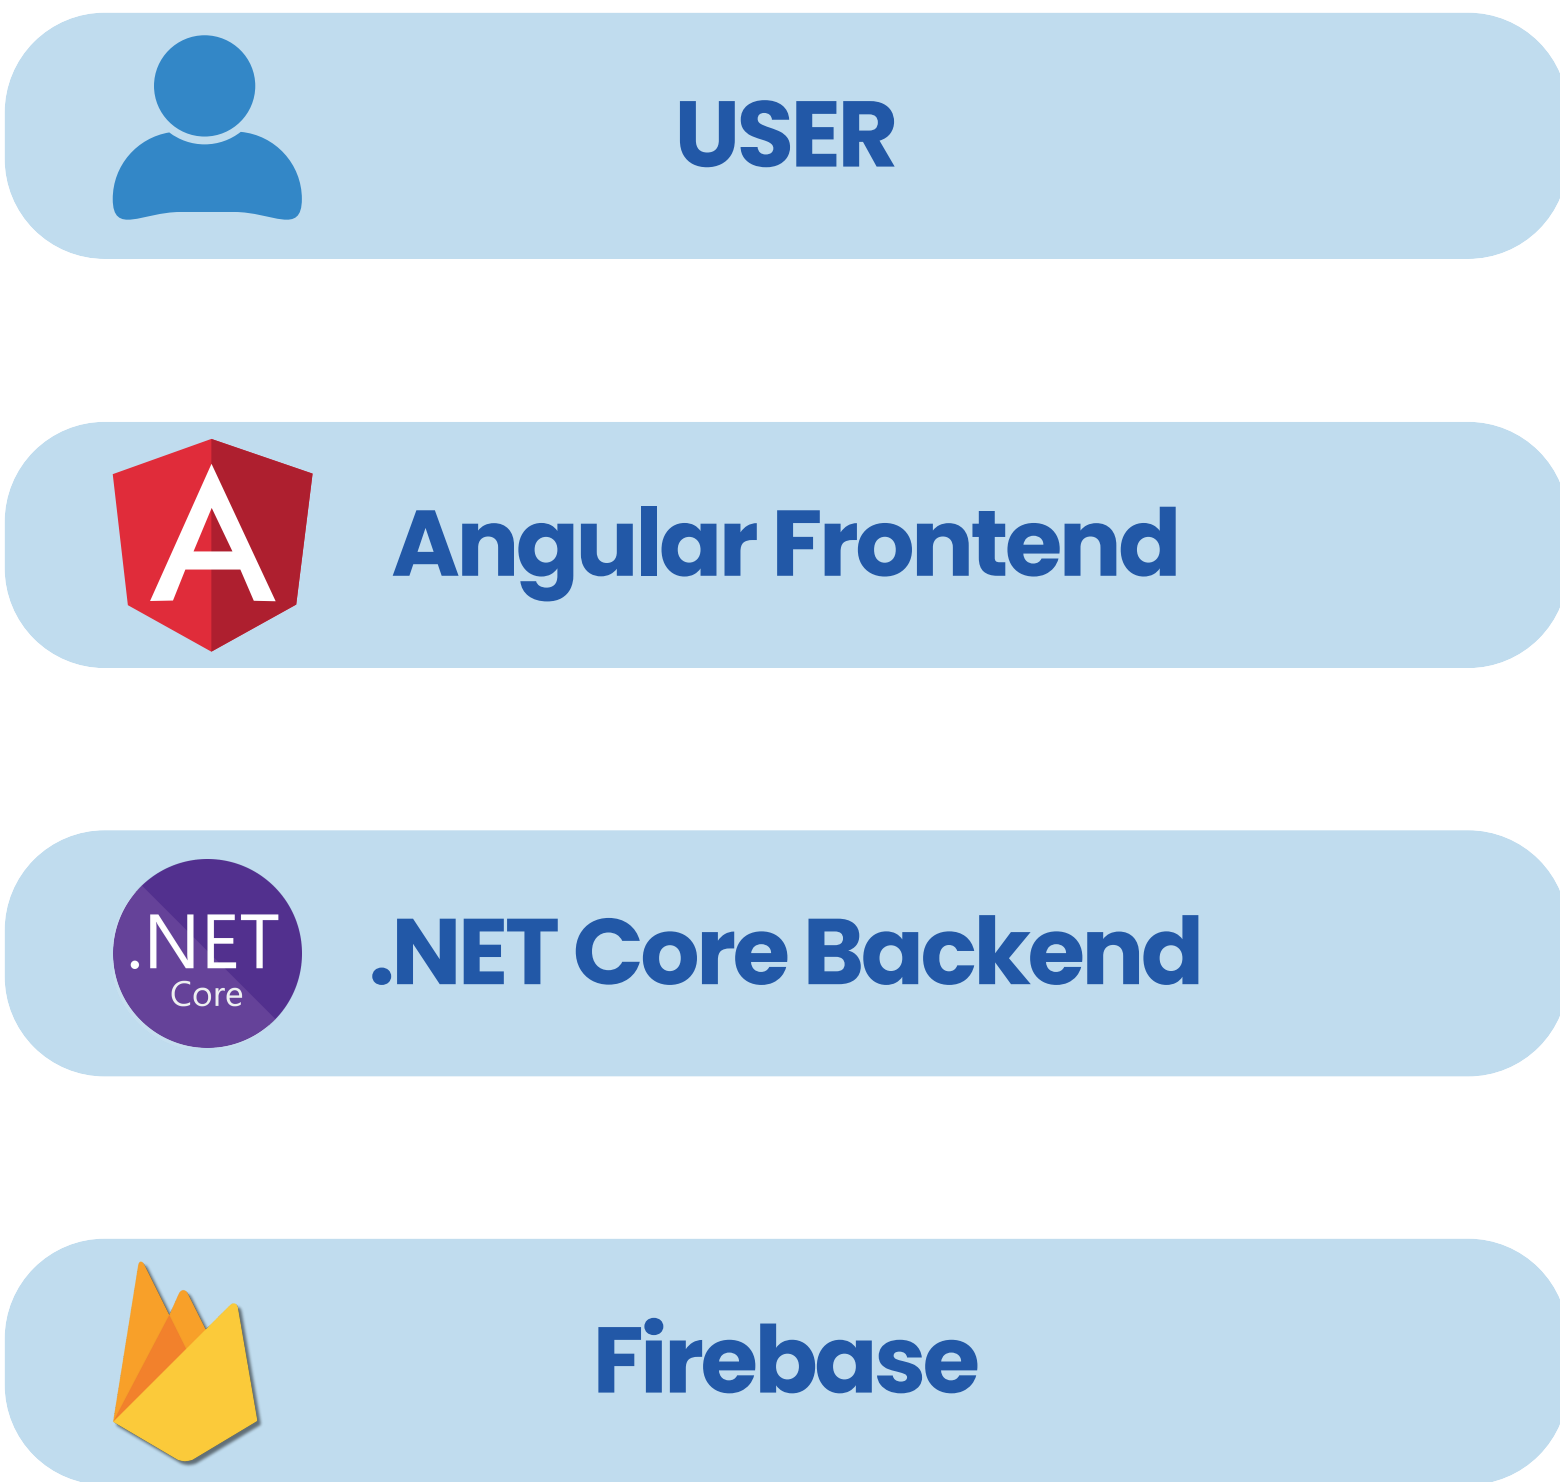

- Manual email and spreadsheet process.
- Hard to track approvals and homework loads.
- Limited visibility for parents and staff.

THE SOLUTION

- Centralised web application
- Role-based access for secure workflows
- Real-time tracking, approvals and reports
